Supported Controls: Bluetooth Remote (incl), IR, WiFi/Ethernet (Control Systems) & Contact Closure

Nexus 21 Universal Control Hub has drivers for most Control Systems. A list of supported drivers can be found at www.chowmainsoft.com under the Driver Modules tab.

Documentation is included with each driver that provides detailed information about commands, installation, and setup procedures.

Note: All drivers for Savant can be found directly through Savant's Database.

Contact Chowmain with any issues regarding integration or driver questions, if you are unsure of whether or not the issue relates to the integration or the driver, contact Nexus 21 Product Support for assistance.

Support Information:

Nexus21: 480-306-5462 support@nexus21.com
